

SET B692: SHOWER ENCLOSURE SQUARE CREA HINGE
90X90X200 LEFT CHROME TRANSPARENT GLASS
COLLECTION [CREA](#), [CREA SHOWER](#)

PRODUCT CODE: S601-137

Product description

Shower enclosure CREA has been crafted from durable 8 mm thick tempered glass, ensuring structural stability and safety of using. The glass is equipped with a protective hydrophobic coating CleanPro, effectively preventing the buildup of limescale and impurities. This feature facilitates easier maintenance of the shower enclosure, keeping it clean and pristine. The metal hinge flush with the glass has the function of lifting the door, which extends the life of the gaskets. The door is also equipped with a specially designed drainage that drains water into the enclosure and a functional threshold strip. Thanks to these solutions, even when the door is open, water flows into the profiled water drainage, so it does not escape outside the shower enclosure and the bathroom remains dry and clean. The innovative hinge mechanism allows you to conveniently open the door to an angle of 180°, however, when it opens to an angle of 90°, it brakes, which provides protection against accidental impacts. Double-sided handles made of high-quality metal combine durability and functionality. The shower enclosure is equipped with a functional wall side profile that adjusts to wall unevenness up to 15 mm. Chrome details with a subtly shiny finish emphasize the modernity and minimalist form of the shower enclosure. Silver magnetic gaskets create an aesthetic whole with the chrome details of the shower enclosure and increase the comfort of using. The high quality of the product is confirmed by a long-term warranty. A wide range of linear drains and shower trays in various colors and heights is available to be combined with the shower enclosure, which allows for freedom of configuration. Square corner shower enclosure, 200 cm high, with a 90 cm wide door and an 90 cm wide wall, left version, with transparent glass.

Technical data

Availability of spare parts (years)	10 years (from the end of production)
Cleanpro coating	yes
Depth	90 cm
Glass colour	transparent
Gross weight	79 kg
Height	200 cm
Intended for shower tray	yes
